DEVA Received Great Attention in CPhI Worldwide

DEVA attended CPhI Worldwide, the world's largest pharmaceutical fair held in Madrid between 13-15 October

CPhI Worldwide, being the world's largest and most extensive pharmaceutical fair, has taken place in Madrid between 13-15 October this year. The fair, attended by more than 2500 companies, welcomed more than 36.000 healthcare professional visitors from approximately 150 countries. DEVA, which is involved in the manufacture of veterinary medicines, cologne and medical ampoules in addition to its main scope of business covering the manufacture and marketing of medicines for human use and raw materials, also attended the CPhI Worldwide.

DEVA held meetings with more than 100 business partners from nearly 25 countries at the fair gathering the global suppliers and drug manufacturers together in order to allow them to operate for competitive costs in their own markets in addition to providing raw material, machine, packaging solutions and contract services, and became one of the most interesting companies thanks to its wide product range and manufacturing capacity.

DEVA, being the holder of nearly 300 licenses in many countries such as Switzerland and several EU countries (Germany, Netherlands and United Kingdom), exports medicines and raw materials to more than 25 countries including New Zealand. DEVA aims to extend his target for growth and improvement to the world market.

About DEVA Holding A.Ş:

DEVA Holding, being active since 1958, is one of the well-established pharmaceutical manufacturers of Turkish healthcare sector. Today, DEVA Holding is among the few pharmaceutical companies carrying its success in the field of medicines for human use to the field of animal health through one of its group companies, Vetaş. DEVA Holding, going beyond the borders of Turkey through its innovative products, has a R&D center equipped with the state-of the art technology.
