

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS PERIOD ENDED 30 JUNE 2023 AND
LIMITED REVIEW REPORT

(Convenience translation of the independent auditors' review report and consolidated financial statements originally issued in Turkish)

(CONVENIENCE TRANSLATION OF THE REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION ORIGINALLY ISSUED IN TURKISH)

REPORT ON REVIEW OF CONSOLIDATED INTERIM FINANCIAL INFORMATION

To the General Assembly of Deva Holding A.Ş.

Introduction

We have reviewed the accompanying consolidated statement of financial position of Deva Holding A.Ş. (“the Company”) and its subsidiaries (together will be referred as “the Group”) as of 30 June 2023 and the related consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. Group management is responsible for the preparation and fair presentation of this consolidated interim financial information in accordance with Turkish Financial Reporting Standards. Our responsibility is to express a conclusion on this consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with Independent Auditing Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Independent Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information does not present fairly, in all material respects, the financial position of Deva Holding A.Ş. and its subsidiaries as of 30 June 2023, and of their financial performance and their cash flows for the six-month period then ended in accordance with Turkish Financial Reporting Standards.

Additional paragraph for convenience translation to English

In the accompanying interim consolidated financial statements, the accounting principles described in Note 2 (defined as Turkish Accounting Standards/Turkish Financial Reporting Standards) differ from International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board with respect to the application of inflation accounting. Accordingly, the accompanying interim consolidated financial statements are not intended to present the financial position and results of operations in accordance with IFRS.

(*) The companies do not have material effect on the consolidated financial statements. Therefore, they are not included in the consolidation.

T operate outside Turkey.

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras (TL))

1. ORGANIZATION AND OPERATIONS OF THE GROUP (cont'd)

Subsidiaries (cont'd)

The Company and its subsidiaries operate in the pharmaceutical industry and are one of the branded generic players in the market. The Group has a wide range product portfolio and a country-wide organized sales force. The Group has 4 production facilities in 4 different locations.

The Group has 214 pharmaceutical molecules in 422 pharmaceutical forms. Of these 7 molecules (in 8 presentation forms) are manufactured and marketed by using license rights.

As of 30 June 2023 the business segments are production and sale of human pharmaceuticals, veterinary and agricultural products and other.

The human pharmaceuticals segment derives the majority of its revenues from the sale of branded generic and licensed products. Branded generic products are finished pharmaceutical products that Deva produces and sells under its trademark rather than the chemical name of the active pharmaceutical compound. Licensed products are finished pharmaceutical products that the Company produces and sells under licenses from other pharmaceutical companies that hold the rights to the pharmaceutical compound. The business encompasses a wide range of medicines combating diseases in the musculoskeletal, alimentary, metabolism and cardiovascular system and infections. Corporate expenses and assets are included in the human pharmaceuticals segment.

The human pharmaceuticals segment also contains , which mainly derives its revenues from the manufacturing and sale of antibiotic active ingredients to local producers including the Company as well as to foreign pharmaceutical companies. In addition to its manufacturing activities, the Company conducts, at its microbiology laboratories, tests and research on the adaptation of raw materials, selection of micro-organisms, formulation of culture mediums, and executes various test and research fermentations on pilot fermentators.

The income of veterinarians and animal breeders segment is achieved by the sales of 83 pharmaceutical molecules in 124 pharmaceutical forms.

The operations in the other segment include production and sale of cologne products.

Further segment information on the Group operations is presented in Note 3.

Approval of the financial statements

The accompanying financial statements have been approved by the Board of Directors and are authorized for issue on 18 August 2023.

Going Concern

The Group prepared consolidated financial statements in accordance with the going concern assumption.

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Lira (TL))

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

Accounting Standards

The Group maintain their books of accounts and prepare their statutory financial statements in accordance with accounting principles in the Turkish Commercial Code and tax legislation. Subsidiaries operating in foreign countries maintain their books of accounts in the currency of the country in which they operate and prepare their statutory financial statements in accordance with the legislation effective in these countries.

The attached consolidated financial statements are prepared in

Turkish Lira, as published in the Official Gazette numbered 28676 and are based on the Turkish Accounting Standards/ Turkish Financial Reporting Standards and relating interpretations which became effective with the 5th Article of the Decree in consideration by Public Oversight Accounting and Auditing Standards Authority.

Additio

October 2022 and in accordance with the formats specified in the Financial Statement Examples and User Guide

The group companies

are registered in Turkey under the Accounting Standards of Accounts issued by the Ministry of Finance. Subsidiaries that are registered in foreign countries maintain their books of account and prepare their statutory statements in accordance with the prevailing accounting principles in their registered countries. These consolidated financial statements have been prepared in Turkish Lira under the historical cost convention.

Presentation and Functional Currency

The individual financial statements of each Group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in Turkish Lira, which is the functional and presentation currency of the Group. Financial statements of subsidiary operating in foreign country (Functional currency of Devatis Ltd is New Zealand Dollar and functional currency of Devatis Inc is U.S. Dollar) translated into presentation currency with the exchange rate prevailing at balance sheet date for balance sheet items except equity. Historical rates are used for the conversion of equity items and average rate for income statement items.

2023 and 2022, the details for the year end and average US dollar, Euro and New Zealand dollar are as follows:

	Period ended		Average	
	30 June 2023	31 December 2022	30 June 2023	30 June 2022
USD/TRY	25,8231	18,6983	19,8612	14,8517
EUR/TRY	28,1540	19,9349	21,4727	16,2150
NZD/TRY	15,9601	11,8776	12,4011	9,8535

Preparation of Financial Statements in Hyperinflationary Periods

The CMB decision No: 11/367 issued at 17 March 2005 requires all companies operating in Turkey and preparing their financial statements in accordance with the Turkey Accounting Standards (including companies adopting TAS/ TFRS) to cease the inflation accounting application as of 1 January 2005. Based on this requirement, the application of TAS 29

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (con'd)

Preparation of Financial Statements in Hyperinflationary Periods (con'd)

entities that apply TFRS should not adjust their financial statements in accordance with TAS 29 - Financial Reporting in Hyperinflationary Economies for the year ended 31 December 2021. As of the date of this report, POA has not made any further announcements regarding the scope and application of TAS 29. As a result, no inflation adjustment was made to the accompanying consolidated financial statements as of 30 June 2023 in accordance with TAS 29.

Reclassification of Comparative Amounts

presentation. The nature, amount and reasons for each of the reclassifications are described below:

- Commercial papers RY 150.000.000 within bank borrowings on the face of the consolidated statement of financial position. In the current year, this amount is classified in the - as a separate line item.

There is no profit or loss effect related to this reclassification.

Basis of Consolidation

The consolidated financial statement incorporate the financial statements of the company and the entities (including structure entities) controlled by Group. Control is achieved when the Group:

- Has power of the investee
- Is exposed, or has rights ,to variable returns from its involvement with the investee and
- Has the ability to use its power to affect its returns

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting of the rights of an investee, it has power of the investee when the voting rights are sufficient to give it practical ability to direct the relevant activities of the investee unilaterally. The company considers all relevant facts and circumstances in assessing whether or not the Comp rights in an investee are sufficient to give it power, including,

- The size of the Group holders;
- Potential voting rights held by the Group, other vote holders or other parties ;
- Rights arising from other contractual agreements ;and
- Any additional facts and circumstances that indicate that the Group has ,or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the company losses control of the subsidiary. Income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss other comprehensive income from the date the company gains control until the date when the company ceases to control the subsidiary.

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

Preparation of Financial Statements in Hyperinflationary Periods (con'd)

Basis of Consolidation (con'd)

Profit or loss and each component of other comprehensive income are attributed to the owners of the company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the company and to the non-controlling interests even if this result in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

2.1 Changes in the Accounting Estimates and Errors

If changes in the accounting estimates are related to only one period, they are applied in the current year; if they are related to the future period, they are applied both in current and future periods. The Group has no significant changes to the accounting estimates in the current period. When a significant accounting error occurs, it is corrected retrospectively and the prior year financial statements are restated.

2.2 New and Revised Turkish Financial Reporting Standards

The accounting policies adopted in preparation of the consolidated financial statements as at June 30, 2023 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of January 1, 2022. The effect of these changes on the Group's financial position and performance have been disclosed in the related paragraphs.

i) Amendments that are mandatorily effective from 2023:

Amendments to TAS 1	Disclosure of Accounting Policies
Amendments to TAS 8	Definition of Accounting Estimates
Amendments to TAS 12	Deferred Tax related to Assets and Liabilities arising from a Single Transaction
Amendments to TFRS 17	Initial Application of TFRS 17 and TFRS 9 Comparative Information (Amendment to TFRS 17)

Amendments to TAS 1 Disclosure of Accounting Policies

The amendments require that an entity discloses its material accounting policies, instead of its significant accounting policies.

Amendments to TAS 1 are effective for annual reporting periods beginning on or after 1 January 2023 and earlier application is permitted.

Amendments to TAS 8 Definition of Accounting Estimates

The amendments require that an entity discloses its material accounting policies, instead of its significant accounting policies. Differences between application of an estimate prospectively and correction of errors retrospectively have been clarified.

Amendments to TAS 8 are effective for annual reporting periods beginning on or after 1 January 2023 and earlier application is permitted.

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.2 New and Revised Turkish Financial Reporting Standards (cont'd)

i) Amendments that are mandatorily effective from 2023 (cont'd)

Amendments to TAS 12 Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The amendments clarify that the initial recognition exemption does not apply to transactions in which equal amounts of deductible and taxable temporary differences arise on initial recognition.

Amendments to TAS 12 are effective for annual reporting periods beginning on or after 1 January 2023 and earlier application is permitted.

Amendments to TFRS 17 Insurance Contracts and Initial Application of TFRS 17 and TFRS 9 — Comparative Information

Amendments have been made in TFRS 17 in order to reduce the implementation costs, to explain the results and to facilitate the initial application.

The amendment permits entities that first apply TFRS 17 and TFRS 9 at the same time to present comparative information about a financial asset as if the classification and measurement requirements of TFRS 9 had been applied to that financial asset before.

Amendments are effective with the first application of TFRS 17.

The Group assessed that the adoption of these amendments that are effective from 2023 do not have any effect on

ii) New and revised TFRSs in issue but not yet effective

The Group has not yet adopted the following standards and amendments and interpretations to the existing standards:

TFRS 17	Insurance Contracts
Amendments to TFRS 4	Extension of the Temporary Exemption from Applying TFRS 9
Amendments to TAS 1	Classification of Liabilities as Current or Non-Current
Amendments to TFRS 16	Lease Liability in a Sale and Leaseback
Amendments to TAS 1	Non-current Liabilities with Covenants

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.2 New and Revised Turkish Financial Reporting Standards (cont'd)

iii) New and revised TFRSs in issue but not yet effective (cont'd)

TFRS 17 Insurance Contracts

TFRS 17 requires insurance liabilities to be measured at a current fulfillment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. TFRS 17 supersedes TFRS 4 Insurance Contracts as of 1 January 2024 for insurance and reinsurance and pension companies.

Amendments to TFRS 4 Extension of the Temporary Exemption from Applying TFRS 9

The amendment changes the fixed expiry date for the temporary exemption in TFRS 4 Insurance Contracts from applying TFRS 9, so that insurance and reinsurance and pension companies would be required to apply TFRS 9 for annual periods beginning on or after 1 January 2024 with the deferral of the effective date of TFRS 17.

Amendments to TAS 1 Classification of Liabilities as Current or Non-Current

The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current.

Amendments to TAS 1 are effective for annual reporting periods beginning on or after 1 January 2024 and earlier application is permitted.

Amendments to TFRS 16 Lease Liability in a Sale and Leaseback

Amendments to TFRS 16 clarify how a seller-lessee subsequently measures sale and leaseback transactions that satisfy the requirements in TFRS 15 to be accounted for as a sale.

Amendments are effective from annual reporting periods beginning on or after 1 January 2024.

Amendments to TAS 1 Non-current Liabilities with Covenants

Amendments to TAS 1 clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability.

Amendments are effective from annual reporting periods beginning on or after 1 January 2024.

The Group evaluates the effects of these standards, amendments and improvements on the consolidated financial statements.

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies

a. Revenue

The Group recognizes revenue when the goods or services are transferred to the customer and when performance obligation is fulfilled. Goods are counted to be transferred when the control belongs to the customer.

The Group recognizes revenue based on the following five main principles:

- (a) Identification of customer contracts
- (b) Identification of performance obligations
- (c) Determination of transaction price in the contract
- (d) Allocation of price to performance obligations
- (e) Recognition of revenue when the performance obligations are fulfilled

Pharmacy warehouses are the customers whose normal operating output is obtained by the Group. Revenues are obtained from product sales to these distribution warehouses. Revenue is recognized on an accrual basis at the fair value of the consideration expected to be received or received as a result of delivery, reliable determination of the amount of revenue and the probable economic benefits to be transferred to the Group. There are no separate contracts with pharmaceutical warehouses that owned by same company and the warehouses are considered as a single group.

The Group, which has a single performance obligation within the scope of the goods and services decomposition, does not make a distinction in terms of individual performance criteria and obligations.

Pharmaceuticals p

Human Use published by the Ministers. Gross sales; includes sales discounts, sales volume discounts and free product incentives. These variables are deducted from the proceeds at the first registration stage.

Sales discounts are issued instantly with a fixed percentage and the period is deducted from sales revenue. Sales discount percentage varies according to the product sold.

Volume discount is determined by a fixed percentage of sales during the period and total sales made during the period. Volume discount percentages vary according to pharmaceutical warehouses. Estimates of volume discounts are based on a fixed rate of realized invoiced sales in each period and the period is deducted from sales revenue.

There is no application in the form of a refund with the pharmaceutical warehouses for the recovery of the products that have short expiry dates. At the end of the period, if such products are available and possible, they are sent to the pharmaceutical warehouse via free product incentive instead of refund implementation.

In addition, the Group provides incentives in the form of free products to pharmaceutical warehouses. The free product incentives provide the distribution of the products provided by the pharmaceutical warehouses to the customers free of charge. At the end of each period, pharmaceutical warehouses shall inform the Group of the total amount of free products they provide to their customers. The discount amount (the amount to be deducted from the debt of the pharmaceutical store) is estimated and deducted from the income according to the amount of free products given within the period.

The Group recognizes revenue from its customers only when all of the following criteria are met:

- (a) The parties to the contract have approved the contract (in writing, orally or in accordance with other customary business practices) and are committed to perform their respective obligations,
- (c) Group can identify the payment terms for the goods or services to be transferred;
- (d) The contract has commercial substance,
- (e) It is probable that Group will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer. In evaluating whether collectability of an amount of consideration is probable, an entity shall consider only the customer's ability and intention to pay that amount of consideration when it is due.

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in TRY thousands)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

a. Revenue (cont'd)

Cost of sales - free of charge goods

Free goods provided to distributors are estimated based on the actual number of free products given by the distributors to its customers during the period and the cost of the free goods are included as part of cost of sales.

Interest revenue

Interest revenue is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

b. Inventories

Inventories are stated at the lower of cost and net realizable value. Costs, including an appropriate portion of fixed and variable overhead expenses, are assigned to inventories held by the method most appropriate to the particular class of inventory, with being valued on standard costing basis. At the end of the each reporting period, the standard costs are updated based on the actual costs. Net realizable value represents the estimated selling price less all estimated costs of completion and costs necessary to make a sale. The Group exterminates the products in its inventory that have been expired and cannot be reused based on R&D and quality evaluations, and allocates provision in the inventory accounts for the related products in the financial statements. As of 30 June 2023, the total amount of extermination and diminishing value of these provisions is TRY 151.554.243 (31 December 2022: TRY 123.705.492) (Note 10).

c. Property, Plant and Equipment

Property, plant and equipment are carried at cost less accumulated amortization and any impairment loss. Properties in the course of construction for production, rental or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognized impairment loss. Cost includes professional fees and, for qualifying assets,

same basis as other property assets, commences by straight-line method when assets are ready for their intended use, as their useful lives explained in Note 13.

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property, plant and equipment is included in net income or loss as investment income or expense, but not classified as revenue, when the item is derecognised (unless TAS 16 requires otherwise on a sale and leaseback).

If an entity recognises in the carrying amount of an item of property, plant and equipment the cost of a replacement for part of the item, then it derecognises the carrying amount of the replaced part regardless of whether the replaced part had been depreciated separately. If it is not practicable for an entity to determine the carrying amount of the replaced part, it may use the cost of the replacement as an indication of what the cost of the replaced part was at the time it was acquired or constructed. The gain or loss arising from the derecognition of an item of property, plant and equipment shall be determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

d. Intangible Assets

Intangible assets acquired separately

Intangible assets acquired separately are reported at cost less accumulated amortization and accumulated impairment losses. Amortization is charged on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

d. Intangible Assets (cont'd)

Internally-generated intangible assets – research and development costs

Research costs are recognised as expense in the period in which it is incurred. An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- The intention to complete the intangible asset and use or sell it;
- The ability to use or sell the intangible asset;
- How the intangible asset will generate probable future economic benefits;
- The availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- The ability to measure reliably the expenditure attributable to the intangible asset during its development.

The Group has development activities related to licenses of new medicines. The amount initially recognised for internally-generated intangible assets is the sum of expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development cost is charged to profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are recognized at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets acquired separately. Impairment losses related to these are recognised in the "Research and Development Expenses" account in the statement profit or loss.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

e. Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

The cost of right-of-use assets includes:

- a) the amount of lease liabilities recognised,
- b) lease payments made at or before the commencement date less any lease incentives received,
- c) initial direct costs incurred.

Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right of use assets are subject to impairment assessment.

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in TRY thousands)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

f. Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term.

At the commencement date of the lease, the measurement of the lease liabilities includes:

The lease payments include

- fixed payments (including in-substance fixed payments) less any lease incentives receivable,
- The variable lease payments that depend on an index,
- The amounts expected to be paid under residual value guarantees,
- The exercise price of a purchase option reasonably certain to be exercised by the Group,
- Payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate.

The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

g. Impairment of Non-Financial Assets

At each balance sheet date, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

h. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recorded in the income statement in the period in which they are incurred. Assets that necessarily take a substantial period of time to get ready for intended use or sale of the Group are license development costs. Transformation of these costs to be ready for sale state may take more than one financial year. Borrowing costs incurred for development costs are added to cost of the related asset until it is ready for sale. During the period ended 30 June 2023, TRY 12.293.969 (30 June 2022: TRY 5.710.921) amount was capitalized on these qualifying assets (Note 15). The weighted average capitalization rate on funds borrowed is 7,4% for three months (30 June 2022: 7,4% for six months period).

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

i. Financial Instruments

(i) Financial assets

Classification

The Group classifies its financial assets in three categories; through amortization, through fair value difference reflected in other comprehensive income and through financial assets at fair value through profit and loss. The classification is based on the business model used by the entity for the management of financial assets and the characteristics of the contractual cash flows of the financial assets. The Group classifies its assets at the date of the purchase. Financial assets are not reclassified after initial recognition unless the business model that the Group uses in the management of financial assets change, and in case of a change in business model, the financial assets are reclassified on the first day of the following reporting period.

Recognition and Measurement

Financial assets measured at amortised cost is a non-derivative financial asset that is held as part of a business model that aims to collect contractual cash flows and that have cash flows that include interest payments on principal dates and principal balances on certain dates under contractual terms.

Financial assets measured at amortised cost are initially recognized at their fair value plus or minus the initial recognition of financial assets and discounted values by using the effective interest rate method in the subsequent accounting. Gains and losses resulting from the valuation of non-derivative financial assets measured at amortised cost are recognized in the consolidated statement of profit and loss.

Financial assets measured at fair value through profit and loss are non-derivative financial asset that includes cash flows that are held only on principal dates and interest on certain dates under contractual terms and that are held within a business model aimed at collecting contractual cash flows and selling the financial assets. Gains or losses arising from the aforementioned financial assets are recognized in other comprehensive income with the exception of impairment gain or loss and foreign exchange gain or loss. For investments in equity-based financial assets, the Group may irrevocably choose the method of reflecting the subsequent changes in the fair value of other comprehensive income in the financial statements for the first time. In the event that such preference is made, dividends received from related investments are recognized in the consolidated statement of profit and loss. Financial assets at fair value through profit and loss are comprised of financial assets measured at amortized cost except for the financial assets at fair value through profit and loss. Gains and losses arising from the valuation of the aforementioned assets are recognized in the consolidated income statement.

Derecognition of Financial Assets and Liabilities

The Group derecognizes a financial asset when the Group discontinues its rights to cash flows in accordance with the contract for financial assets or, when the related rights are transferred by a trading transaction to the ownership of all risks and rewards of the financial asset. Any rights created or held by the Group in respect of the financial assets transferred by the Group are recognized as a separate asset or liability.

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

i. Financial Instruments (cont'd)

(i) Financial assets (cont'd)

Impairment

Impairment on financial assets and contractual assets is calculated by using a method called Expected Loan Loss (ELL). This impairment model is applied to amortised cost financial assets and contractual assets.

Loss provisions were measured on the following basis;

12 month ELL; is the ELL of the possible default events within 12 months of the reporting date.

Lifetime ELL; is the expected loss of loans resulting from all possible default events during the expected life of a financial instruments.

The expected lifetime loan loss measurement is applied when the credit risk associated with a financial asset is significantly increased at the reporting date. In all other cases where the related increase has not occurred, 12-Month ELL calculation has been applied. The Group may determine that the credit risk of the financial asset does not increase significantly if the credit risk of the financial asset has a low credit risk at the reporting date. Nevertheless, the ELL measurement (with a simplified approach) is always applicable to trade receivables and contract assets without a significant financing element.

Recognition and Measurement

Financial assets that are purchased and sold normally are recorded at the date of sale. The date of the purchase is the date which the Group commits to purchase or sell the asset. Financial assets except for financial assets at fair value through profit and loss are initially recognized at fair value plus transaction costs. When the cash flow purchase rights arising from financial assets expire or are transferred and the Group transfers all the risks and rewards, the financial assets are excluded from the balance sheet. Financial assets that are available for sale are subsequently accounted for at their fair values. Loans and receivables are carried at amortised cost using the effective interest method.

(ii) Financial liabilities

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

Financial liabilities are classified as either financial liabilities at FVTPL or other financial liabilities.

Financial assets at FVTPL

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short-term. Derivatives are also categorised as held for trading unless they are designated as hedges. The Group does not have any financial asset at fair value through profit or loss as of balance sheet date.

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

i. Financial Instruments (cont'd)

(ii) Financial liabilities (cont'd)

Bonds issued

Bonds issued, including borrowings, are initially measured at fair value, net of transaction costs and are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period (Note 6).

Derivative financial instruments

Derivative financial instruments are initially recognised at the acquisition cost reflecting the fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. The derivative instruments of the Group mainly consist of foreign exchange forward contracts. These derivative transactions, even though providing effective economic hedges under the Group risk management position, do not generally qualify for hedge accounting under the specific rules and are therefore treated as derivatives held for trading in the consolidated financial statements. The fair value changes for these derivatives are recognised in the consolidated income statement.

j. Business Combinations

The acquisition of subsidiaries and businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognized in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognized at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with TAS 12 Income Taxes and TAS 19 Employee Benefits respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with TFRS 2 Share-based Payment at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with TFRS 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

j. Business Combinations (cont'd)

Non-controlling interests that represent the shareholder shares and give the owners the right to exercise a certain share of the net assets of the enterprise in the event of liquidation are first measured at their fair values or at the amount of the identifiable net assets of the acquired entity that are accounted for in the non-controlling interests. The measurement basis is determined by each process. Other types of non-controlling interests are measured at fair value, or, where applicable, in accordance with the procedures specified in another TFRS standard. Where the price transferred by the Group in a business combination also includes the contingent consideration, the contingent consideration is measured at its fair value on the acquisition date and included in the consideration transferred in the business combination. If adjustments are required to be made in the fair value of the contingent consideration as a result of additional information generated during the measurement period, this correction is corrected retrospectively from goodwill. The measurement period is the period after which the acquirer can correct the temporary amounts recognized by the acquirer in the business combination. This period cannot be more than 1 year from the date of purchase.

The subsequent recognition of changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments shall vary according to the classification for the contingent consideration.

Contingent consideration that is classified as equity is not remeasured and the subsequent payment is recognized in equity. If the contingent consideration classified as an asset or a liability is a financial instrument and is within the scope of TAS 39 Financial Instruments: Recognition and Measurement, the contingent consideration is measured at fair value and the gain or loss arising from the change is recognized in profit or loss or other comprehensive income. Those who are not included in TAS 39 are accounted for in accordance with TAS 37 Provisions, Contingent Liabilities and Assets or other appropriate TFRS.

In a progressive business combination, the Group is re-measured at the date of acquisition (i.e. on the date of control of the Group) to bring the equity share held by the Group at fair value to the fair value and, if any, the gain / loss arising, if any, in profit / loss It accounted for. Amounts arising from the share of the acquired entity recognized prior to the acquisition date in other comprehensive income are transferred to profit / loss under the assumption that such shares are disposed.

Where the acquisition accounting for a business combination cannot be completed at the end of the reporting period at which the merger occurred, the Group reports temporary amounts for items for which the accounting transaction could not be completed. These provisional reported amounts are adjusted in the measurement period or additional assets or liabilities are recognized to reflect the new information that may have an impact on the amounts recognized at the date of acquisition and related to the events and circumstances that occurred at that time.

Business combinations that took place prior to 1 January 2010 were accounted for in accordance with the previous version of TFRS 3.

k. Goodwill

assets of the acquired subsidiary/associate at the date of the acquisition.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination. A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss in the consolidated income statement. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable to amount of goodwill is included in the determination of the profit or loss on disposal.

(Amounts expressed in TRY)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

l. Treasury Shares

If an entity reacquires its own equity instruments, those instruments ("treasury shares") are deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of an entity's own equity instruments. Such treasury shares may be acquired and held by the entity or by other members of the consolidated group. Consideration paid or received is recognised directly in equity. Following the Deva-erger that realized as of 30 December with nominal value of 0,013-ares with a nominal value of 0,01- have been transferred to Deva.

m. Foreign Currency Transactions

The individual financial statements of each Group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in TRY, which is the functional currency of the Company, and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than TRY (foreign currencies) are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognised in profit or loss in the period in which they arise except for:

- Exchange differences which relate to assets under construction for future productive use, which are included in the cost of those assets where they are regarded as an adjustment to interest costs on foreign currency borrowings;
- Exchange differences on transactions entered into in order to hedge certain foreign currency risks; and;
- Exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur, which form part of the net investment in a foreign operation, and which are recognized in the foreign currency translation reserve and recognized in profit or loss on disposal of the net investment.

operations are expressed in TRY using exchange rates prevailing on the balance sheet date. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are classified as equity and transferred to the foreign currency translation reserve and recognized in profit or loss in the period in which the foreign operation is disposed of.

n. Earnings per Share

Earnings per share disclosed in the accompanying consolidated statement of profit or loss is determined by dividing net income by the weighted average number of shares in existence during the year concerned.

Accordingly, the retrospective effect for those share distributions is taken into consideration in determining the weighted-average number of shares outstanding used in this computation.

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

o. Subsequent Events

Subsequent events comprise events between the balance sheet date and the publication date of the balance sheet even if they emerge after any announcement or declaration related with the financial results or other selected financial information. The Group adjusts the amounts recognised in its financial statements to reflect the adjusting events after the balance sheet date. If non-adjusting events after the balance sheet date have material influence on the economic decisions of users of the financial statements, they are disclosed in the notes to the consolidated financial statements.

p. Provisions, Contingent Liabilities, Contingent Assets

Provisions are recognized when the Group has a present obligation as a result of a past event, and it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is actually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

r. Related Parties

A party is related to the Company if:

(a) Directly, or indirectly through one or more intermediaries, the party:

- (i) controls, is controlled by, or is under common control with, the entity (this includes parents, subsidiaries and fellow subsidiaries);
- (ii) has an interest in the entity that gives it significant influence over the entity; or
- (iii) has joint control over the entity;

(b) the party is an associate of the entity;

(c) the party is a joint venture in which the entity is a venturer;

(d) the party is a member of the key management personnel of the entity or its parent;

(e) the party is a close member of the family of any individual referred to in (a) or (d);

(f) the party is an entity that is controlled, jointly controlled or significantly influenced by or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (d) or (e); or

(g) the party is a post-employment benefit plan for the benefit of employees of the entity, or of any entity that is a related party of the entity.

A related party transaction is a transfer of resources, services, or obligations between related parties, regardless of whether a price is charged.

In the accompanying consolidated financial statements, EastPharma Ltd., EastPharma S.A.R.L., East

close members of the family of any individual who directly or indirectly controls the Company are considered and referred to as related parties.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

s. Segment Information

The Group classifies its operations into three business segments: production and sale of human pharmaceuticals, veterinary products and other. These segments are prepared according to the TFRS 8. The Group does not have any significant asset outside Turkey.

t. Share Capital and Dividends

Ordinary and preferred shares are classified as equity. Dividends distributed on ordinary shares and preferred stocks are recognised less any retained earnings in the period in which they are announced.

u. Taxation and Deferred Tax

Turkish tax legislation does not permit a parent company and its subsidiary to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the accompanying consolidated financial statements are calculated on a separate-entity basis.

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it includes tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases which is used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the entity is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

u. Taxation and Deferred Tax (cont'd)

Deferred tax (cont'd)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

v. Employment Termination Benefits

Under Turkish law and union agreements, lump sum payments are made to employees retiring or involuntarily leaving the Group. Such payments are considered as being part of defined retirement benefit plan as per Turkish TAS. The retirement benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognised actuarial gains and losses.

y. Statement of Cash Flows

In statement of cash flow, cash flows are classified as from operating, investment and finance activities. Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments.

z. Government Grants and Incentives

Grants from the government are recognized at their fair value by accrual basis, where there is a reasonable assurance that the grant will be received and the group will comply with all attached conditions.

Government grants relating to costs are deferred and recognized in the income statement over the period necessary to match them with the costs that they are intended to compensate. Government grants relating to property, plant and equipment and intangible assets are included current and non-current liabilities as deferred government grants and are credited to the income statement on a straight-line basis over the expected lives of the related assets.

The Group receives assistance from Scientific and

development activities of the industries in Turkey. Within the framework of this program, a certain portion of the development expenditures of the industrial companies are reimbursed.

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras (TRY))

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

aa. Critical Accounting Judgments and Key Sources of Estimation Uncertainty

Critical judgments in applying the entity's accounting policies

The Group Management has made the following judgments that have the most significant effect on the amounts recognised in the financial statements.

Recoverability of internally-generated intangible assets

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognized only if the technical feasibility and the intention to complete the intangible asset, the ability to use or sell the intangible asset are demonstrated, how the intangible asset will generate probable future economic benefits is determined, adequate technical, financial and other resources to complete the development and to use or sell the intangible asset is available and the expenditure attributable to the intangible asset during its development can be reliably measured. Other development expenditures that do not meet these criteria are recognized as expense when incurred.

During the period, management reconsidered the recoverability of its internally-generated intangible assets. Management believes the projects will continue as expected and based on this analysis management continues to anticipate similar revenues from the projects. Management is confident that the carrying amount of the assets will be recovered in full, even if estimated revenues are reduced. This situation is closely monitored by management, and adjustments made in future periods if future market activity indicates that such adjustments are appropriate. During the period ended 30 June 2023, the Group Management has recognized net book value of TRY 129.766.255 an impairment loss, and written-off the impaired amount from capitalized development costs and product licenses and rights (30 June 2022: TRY 116.802.101) (Note 15).

Intangible asset recognized on business combination

The acquisition of subsidiaries and businesses are accounted for using the purchase method. The cost of the acquisition is measured at the aggregate of the fair value, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree, plus any costs directly attributable to the business combination. Valuation was conducted to serve as a basis for allocation of the purchase price to the various classes of assets acquired in accordance with TFRS

TAS and TFRS 3 and TAS 38 purposes, the standard of value is fair value defined as the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties. In determining the fair value of the intangible assets, the three traditional approaches to valuation were considered: the cost approach, the market approach and the income approach. The cost approach was utilized in the valuation of the

separately identifiable intangible asset for financial reporting purposes. The income approach was utilized in arriving at the value of the acquired product rights, license and supply agreement.

DEVA HOLDİNG A.Ş. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

aa. Critical Accounting Judgments and Key Sources of Estimation Uncertainty (cont'd)

Deferred tax assets

Deferred tax assets and liabilities are recorded using substantially enacted tax rates for the effect of temporary differences between book and tax bases of assets and liabilities. Currently, there are deferred tax assets resulting from operating loss carry-forwards and deductible temporary differences, all of which could reduce taxable income in the future. Based on available evidence, both positive and negative, it is determined whether it is probable that all or a portion of the deferred tax assets will be realised. The main factors which are considered include future earnings potential; cumulative losses in recent years; history of loss carry-forwards and other tax assets expiring; the carry-forward period associated with the deferred tax assets; future reversals of existing taxable temporary differences; tax-planning strategies that would, if necessary, be implemented, and the nature of the income that can be used to realise the deferred tax asset. If based on the weight of all available evidence, it is probable that taxable profit will be available sufficient to utilise some portion of these deferred tax assets, then some portion of or all of the deferred tax assets are not recognised. As of 30 June 2023 and 31 December 2022, as a result of the assessment made, the Group has recognized deferred tax assets because it is probable that taxable profit will be available sufficient to recognize deferred tax assets.

Impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit (CGU) and a suitable discount rate in order to calculate present value. The recoverable amounts of the CGUs are determined from value in use calculations. The key assumptions for the value in use calculations are the discount rates, growth rates and expected changes to selling prices and direct costs during the period.

The Group estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGUs. The growth rates are based on industry growth forecasts. Changes in selling prices and direct costs are based on past practices and expectations of future changes in the market.

As of 31 December 2022, the recoverable amount of the cash-generating units is determined based on the value in use calculation which uses cash flow projections based on financial budgets approved by management covering a five-year period, and a discount rate of 16,1% per annum. Cash flows beyond that five-year period have been extrapolated by using a steady real growth rate of 7,9% which inflation rate forecast between the years 2027-2031 for Turkey. The impairment testing is performed annually.

For the impairment testing the Company considered the higher of the fair value less costs to sell of the cash-generating unit or its value in use. The fair value less costs to sell is determined by using market approach which included guideline company method, guideline transaction method and publicly traded stock of the cash-generating unit. Fair value less cost to sell also incorporated the value in use calculated from the cash flow projections approved by the management. Weighting factors were utilized to conclude on the fair value of the cash-generating unit.

Goodwill for impairment is tested annually at the end of the each year. As at 30 June 2023, there were no indicators of impairment. No impairment loss is recognized in the accompanying consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2023

(Amounts expressed in Turkish Liras)

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS (cont'd)

2.3 Summary of Significant Accounting Policies (cont'd)

aa. Critical Accounting Judgments and Key Sources of Estimation Uncertainty (cont'd)

Net realizable value

Inventories are stated at the lower of cost and net realizable value. Costs, including an appropriate portion of fixed and variable overhead expenses, are assigned to inventories held by the method most appropriate to the particular class of inventory, with being valued on standard costing basis. At the end of the each reporting period, the standard costs are updated based on the actual costs. Net realizable value represents the estimated selling price less all estimated costs of completion and costs necessary to make a sale.

When the net realizable value of inventory is less than its cost, the inventory is written down to the net realizable value and the expense is included in statement of income / (loss) in the period the write-down or loss occurred.

their net realizable value since the net realizable value of these inventories is less than their cost.

Provision for litigations

In determining of provision for litigations, the Group considers the probability of legal cases to be resulted against the Group and in case it is resulted against the Group considers its consequences based on the assessments of legal advisor. The Group management makes its best estimates using the available data are provided in Note 18.

Expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for date.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

The expected credit losses are mentioned in the Note 8.

(Amounts expressed in)

13. PROPERTY, PLANT AND EQUIPMENT (cont'd)

Depreciation periods for property, plant and equipment, which approximate the useful lives of such assets, are as follows:

Land improvements	25-50 years
Buildings	25-50 years
Machinery and equipment	4-30 years
Vehicles	5 years
Furniture and fixtures	5 years
Leasehold improvements	2-3 years

Property, plant and equipment are depreciated principally on a straight-line basis except land and construction in progress. The estimated useful lives, residual values and depreciation method are reviewed at each year end for the possible effects of change in estimates, with the effect of any changes in estimate accounted for on a prospective basis.

16. GOODWILL

	30 June 2023	31 December 2022
Goodwill	1.782.731	1.782.731

On 14 March 2008, the Agreement with F. Hoffmann- registrations for eight Roche products registered in Turkey.

signed a definitive Asset Purchase

In addition, on 16 May 2008, the Eastpharma S.A.R.L signed a License and Supply Agreement allowing Eastpharma S.A.R.L to license an additional eight Roche products on an exclusive basis for Turkey. Company is a party to the agreements signed by its ultimate parent company, Eastpharma S.A.R.L.

There is no termination date for the Asset Purchase Agreement. The License and Supply Agreement will remain in force for five years as of effective date. At the expiry date, the Company has used the right to extend the agreement for additional three plus three years.

The necessary regulatory approvals of the Turkish Competition Board were obtained on 16 May 2008 and the agreement has become effective as of 19 September S.A.R.L transferred the rights and registration of 16 pharmaceuticals products in Turkey within the scope of Asset Purchase and License and Supply Agreement.

The purchase price was funded through cash of TRY 18.897.646 net of cash received for the past termination rights of the personnel transferred to the Company. Based on the goodwill impairment test performed, there is no indication of impairment as of 30 June 2023 (Note 2).

Goodwill arising from the business combination is allocated to human pharma segment and there is no allocation to other segments as of 30 June 2023.

Sensitivity to changes in assumptions used in the goodwill impairment test

In the calculation of the present value of future cash flows, long term growth rate and discount rates are taken into account. Originally, the long term growth rate is assumed to be 7,9%. Had the rate been assumed to be 6,9%, the recoverable amount would have been above the goodwill included book value of cash generating unit and resulting no impairment provision would have been provided for. Originally, the discount rate is assumed to be 16,1%. Had the rate been assumed to be 17,1%, the recoverable amount would have been above the goodwill included book value of cash generating unit and resulting no impairment provision would have been provided for.

20. EMPLOYMENT BENEFITS (cont'd)

Provision for employment termination benefits

Under the Turkish Labor Law, the Company is required to pay employment termination benefits to each employee who has qualified for such payment. Also, employees are required to be paid their retirement pay provisions who retired by gaining right to receive retirement pay provisions in accordance with the provisions set out in law no: 2422 issued at 6 March 1981, law no: 4447 issued at 25 August 1999 and the amended Article 60 of the existing Social Insurance Law No: 506. Some transitional provisions related to the pre-retirement service term were excluded from the law since the related law was amended as of 23 May 2002.

TRY 19.982,83 for each period of
service at 30 June 2023 (31 December 2022: TRY 15.371,40).

The provision is calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of employees. TAS 19 requires actuarial valuation methods to be following actuarial assumptions are used in the calculation of the total liability:

The principal assumption is that the maximum liability for each year of service will increase parallel with the inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. Consequently, in the accompanying financial statements as at 30 June 2023, the provision is calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of the employees. The provisions at the respective balance sheet dates are calculated assuming an annual inflation rate of 18,30% and an interest rate of 22%, resulting in a real discount rate of approximately 3,13% (31 December 2022: 3,13%). The anticipated rate of retirement is considered as 87,00% (2022: 86,60%). As the maximum liability is revised semiannually, the maximum amount of TRY 23.489,83 effective from 1 July 2023 is taken into consideration in the calculation of provision from employment termination benefits (1 January 2022: TRY 10.848,59).

Below is the movement of employment termination provision:

	<u>2023</u>	<u>2022</u>
Provision at 1 January	96.363.234	43.942.290
Service cost	47.391.089	23.299.560
Interest cost	1.724.437	786.355
Termination benefits paid	<u>(72.308.009)</u>	<u>(2.399.662)</u>
Provision at 30 June	<u>73.170.751</u>	<u>65.628.543</u>

Common shares

Each common share has one voting right. Dividend distribution is based on the approval of the decision taken by the Board of Directors, by the General Assembly within the rules of Turkish Commercial Code, Capital Markets Board (CMB) regulatio

Preferred shares

Each one of the type A and B preferred share certificates have a voting right 10 times that of the common shares. Pursuant to the Articles of Association of the Company, 10% of the amount calculated after deducting the 5% of first legal reserves, statutory tax payments and 6% of the paid-in capital is distributed to holders of Type A shares. The remaining profit amount, in full or partial, is allocated equally to each ordinary share.

A and B type shares do not have liquidation preferences. Liquidation is carried out based on the terms of the Turkish Commercial Code. In the general assembly meeting dated 27 April 2007, nominal value of shares has been changed to TRY 0,01. As a result, the number of preferred shares decreased to 10 from 100 in respect of 5274 numbered law.

22. EQUITY ATTRIBUTABLE TO EQUITY HOLDERS OF THE PARENT (cont'd)

Capital (cont'd)

As of 30 June 2023 and 31 December 2022, the details of capital and other balances disclosed under equity are as follows:

	<u>30 June 2023</u>	<u>31 December 2022</u>
Capital	200.019.288	200.019.288
Premium discounts in excess of par	2.870.803	2.870.803
Restricted reserves assorted from profit	150.864.955	150.864.955
Treasury shares (-)	<u>(28.847)</u>	<u>(28.847)</u>
	<u>353.726.199</u>	<u>353.726.199</u>

Restricted reserves appropriated from profit

The legal reserves consist of first and second legal reserves, appropriated in accordance with the Turkish Commercial Code, are not distributable to shareholders. The first legal reserve is appropriated out of historical statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the historical paid-in share capital. The second legal reserve is appropriated after the first legal reserve and dividends, at the rate of 10% per annum of all cash dividend distributions.

In accordance

from the first-time application of inflation adjustments on financial statements, and followed under the reduction in the calculation of profit distribution

so be offset against the profit for the period (if any) and undistributed retained earnings and the remaining loss amount could be offset against capital reserves arising from the restatement of extraordinary reserves, legal reserves and equity items, respectively.

first-

carried at nominal value in the balance sheet and restatement differences of such items were presented in e item in aggregate.

the capital increase by bonus issue or loss deduction, while the carrying value of extraordinary reserves could be subject to the capital increase by bonus issue; cash profit distribution or loss deduction.

Currency translation reserve

Financial statements of subsidiaries published by POA, operating in countries other than Turkey, are adjusted to TAS for the purpose of fair presentation. Subsidiaries' assets and liabilities are translated into TRY from the foreign exchange rate at the balance sheet date and income and expenses are translated into TRY at the average foreign exchange rate. Exchange differences arising from the translation of the opening net assets and differences between the average and balance sheet date rates are included in the "currency translation difference" under the shareholders' equity.

Retained earnings

profit as of 30 June 2023 and 31 December 2022 amounts to TRY 3.203.121.345 and TRY 2.037.638.940, respectively. The accumulated profit balance also includes TRY 26.410.082 of extraordinary reserves as of 30 June 2023 (31 December 2022: TRY 26.410.082).

At the 2022 Ordinary General Assembly Meeting held on April 28, 2023, it was decided that; the shareholders representing TRY 200.019.288 of the capital for 2022, to be paid 15% gross; 13,5% net dividend amounting to a total of TRY 194.741.816 (gross TRY/krs 0,15, net TRY/krs 0,1350 per a share in the amount of TRY 1) depending on their legal status; this dividends to be paid in cash as of May 8, 2023.

29. TAX ASSETS AND LIABILITIES

Current and deferred income tax

The tax expense for the year comprises current and deferred tax. Tax is recognised in the income statement, except to the extent that it relates to items recognised directly in equity. In such case, the tax is also

The current income tax charge is calculated in accordance with the tax laws enacted or substantively enacted at the balance sheet date in the countries where the subsidiaries of the Group operate. Under the Turkish Tax Code, companies having head office or place of business in Turkey are subject to corporate tax.

Under the Turkish taxation system, tax losses can be carried forward to be offset against future taxable income for five years. Tax losses cannot retrospectively offset against the profits of previous years.

Furthermore, provisional corporate taxes are paid at 20% (will be applied as 25% for 2023 and after periods) over profits declared for interim periods in order to be deducted from the final corporate tax.

As of June 30, 2023 and December 31, 2022, income tax provisions have been accrued in accordance with the prevailing tax legislation.

75% of the income derived by the Company from the sale of participation shares, preferential rights, founders' shares and redeemed shares and 50% of the income derived by the Company from the sale of immovable property which are carried in assets for at least for two years is exempt from corporate tax with the condition that the relevant income should be added to the share capital or kept under a special reserve account under equity for 5 years in accordance with the Corporate Tax Law.

Deferred income tax is provided in full, using the liability method, on all temporary differences arising between the tax bases of assets and liabilities and their carrying values in the consolidated financial statements. Currently enacted tax rates are used to determine deferred income tax at the balance sheet date.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2023**

(Amounts expressed in _____)

29. TAX ASSETS AND LIABILITIES (cont'd)

Current and deferred income tax

Deferred tax liabilities are recognized for all taxable temporary differences, where deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized.

Provided that deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority and it is legally eligible, they may be offset against one another.

Tax assets and liabilities

Corporation tax

The Group is subject to taxation in accordance with the tax regulation and the legislation effective in Turkey.

The applied corporate tax rate in Turkey is 20% in 2023 (2022: 23%). Deferred tax assets and liabilities in the consolidated financial statements as of June 30, 2023, deferred tax assets and liabilities are calculated with 20% rate for the portion that will have tax effects in 2023 and the following periods.

Corporate tax rate is applicable to the tax base derived upon exemptions and deductions stated in the tax legislation and by addition of disallowable expenses to the commercial revenues of the companies with respect to the tax legislation. Corporate tax is required to be filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes must be paid by the end of the fourth month.

The tax legislation provides for a temporary tax of 20% (2022 23%) to be calculated based on earnings generated for each period. Temporary tax is declared by the 17th day of the second month following each period and corresponding tax is payable by the 17th day of the same month. The amounts thus calculated and paid are offset against the final corporate tax liability for the year. If there is excess temporary tax paid even if it is already offset, this amount may be refunded or offset.

Corporate tax losses can be carried forward for a maximum period of 5 years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

15% withholding applies to dividends distributed by resident real persons, those who are not liable to income and corporation tax, non-resident real persons, non-resident corporations (excluding those that acquire dividend through a permanent establishment or permanent representative in Turkey) and non-resident corporations exempted from income and corporation tax.

Dividend distribution by resident corporations to resident corporations is not subject to a withholding tax. Furthermore, in the event the profit is not distributed or included in capital, no withholding tax shall be applicable.

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, tax liabilities, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis. As of June 30, 2023 and December 31, 2022, current income tax payables have been offset against the prepaid taxes in entity basis but such offset amounts have been classified in gross basis in the consolidated financial statements.

29. TAX ASSETS AND LIABILITIES (cont'd)

Deferred tax

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between its financial statements as reported in accordance with TFRS and its statutory tax financial statements. These differences usually result in the recognition of revenue and expenses in different reporting periods for TFRS and tax purposes and they are given below.

The tax rate used in the calculation of deferred tax assets and liabilities is 20%.

In Turkey, the companies cannot declare a consolidated tax return, therefore subsidiaries that have deferred tax assets position were not netted off against subsidiaries that have deferred tax liabilities position and disclosed separately.

Deferred tax balances in the balance sheet are presented as follows:

	30 June 2023	31 December 2022
<u>Deferred tax assets / (liabilities)</u>		
Restatement and useful life differences of property, plant and equipment and intangible assets	8.325.916	4.469.348
Provision for employment termination benefits	14.634.150	21.354.647
Inventories	50.584.501	45.960.079

31. NATURE AND LEVEL OF RISKS DERIVED FROM FINANCIAL INSTRUMENTS

(a) Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of the debt and equity balance.

The capital structure of the Group consists of debt, which includes the financial borrowings disclosed in Note 6, cash and cash equivalents disclosed in Note 4 and equity attributable to equity holders of the parent disclosed in Note 22, comprising issued capital, reserves and retained earnings.

As of 30 June 2023 and 31 December 2022, equity/total financial liability rate is as follows:

	30 June 2023	31 December 2022
Financial liability	4.424.180.838	3.398.828.763
Less: Cash and cash equivalents	<u>(751.418.258)</u>	<u>(601.243.499)</u>
Liability (net)	3.672.762.580	2.797.585.264
Total equity	5.189.742.943	3.936.823.980
Total capital	8.862.505.523	6.734.409.244
Liability (net) / Total capital rate	41%	42%

The management considers the cost of capital and the risks associated with each class of capital. Based on quarterly basis. As a part of this review, the recommendations, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt or the redemption of existing debt.

remains unchanged from prior year.

Risk management is carried out by the Board of Directors under policies approved with forward purchase and sale contracts. Policies and risks are regularly reviewed by Audit Committee. As a result of this procedure the Group evaluates the risk performance.

(b.1) Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from

aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the risk management committee monthly.

Credit quality of undue financial assets evaluated based on to retrospective internal rating consideration is as follows:

	30 June 2023	31 December 2022
Trade Receivables		
According to internal rating;		
Customers in Group A	2.240.790.986	1.434.115.139
Customers in Group B	50.485.662	37.874.682
Customers in Group C	<u>234.992.568</u>	<u>207.440.569</u>
	<u>2.526.269.216</u>	<u>1.679.430.390</u>

Customers in Group A: Customers of which credit limit defined without an indemnity and approved by CEO after credit committee confirmation.

Customers in Group B: Customers of which credit limit defined with an existing indemnity and approved by CEO after credit committee confirmation.

Customers in Group C: Customers of which credit limit defined with an indemnity directly attributable (Letter of warranty or credit limit of 70% of mortgage amount).

(b.3) Market Risk Management

financial risks of changes in foreign currency exchange rates (see b.2.1) and interest rates (see b.2.2). The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign currency risk.

Market risk exposures are supplemented by sensitivity analysis.

In the current year, there has been no change in the market risk the Group is exposed or in the risk management and assessment policies of the Group.

(b.3.1) Foreign currency risk management

The Group undertakes certain transactions denominated in foreign currencies. Hence, exposures to exchange rate fluctuations arise from future trade transactions and difference between assets and liabilities. Exchange rate exposures are managed within the approved policy parameters utilising forward foreign exchange contracts.

The G foreign currency position is as follows:

(b)

(b.3) Market Risk Management (cont'd)

(b.3.1) Foreign currency risk management (cont'd)

Foreign currency sensitivity

The functional currency of the Group companies is TRY. The Group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US Dollar and the Euro.

The following table detail 0% increase and decrease in the TRY against the relevant foreign currencies. 20% is the sensitivity rate used when reporting foreign currency risk internally to exchange rates (31 December 2022: 20%). The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year end for a 20% change in foreign currency rates. The sensitivity analysis includes external loans as well as loans to foreign operations within the Group where the denomination of the loan is in a currency other than the currency of the lender or the borrower. A positive number indicates an increase in profit or loss. There is no equity effect.

Foreign Currency Sensitivity	30 June 2023	
	Profit / (Loss)	
	If foreign currency appreciates	If foreign currency depreciates
If US Dollar changes 20%		
1- US Dollar net asset/liability	258.231.552	(258.231.552)
2- Amount protected from US Dollar risk (-)	-	-
3- US Dollar net effect (1+2)	258.231.552	(258.231.552)
If EUR changes 20%		
4- EUR net asset/liability	59.691.165	(59.691.165)
5- Amount protected from EUR risk (-)	-	-
6- EUR net effect (4+5)	59.691.165	(59.691.165)
If other currencies change 20%		
7- Other net asset/liability	2.866.419	(2.866.419)
8- Amount protected from other currency risk (-)	-	-
9- Other net effect (7+8)	2.866.419	(2.866.419)
Total (3+6+9)	320.789.136	(320.789.136)

5- Amount protected from EUR risk (-)	-	-
6- EUR net effect (4+5)	39.969.234	(39.969.234)
If other currencies change 20%		
7- Other net asset/liability	4.124.188	(4.124.188)
8- Amount protected from other currency risk (-)	-	-
9- Other net effect (7+8)	4.124.188	(4.124.188)
Total (3+6+9)	204.412.121	(204.412.121)

(b.3.2) Interest rate risk management

The Group is exposed to interest rate risk as entities in the Group borrow funds at both fixed and floating interest rates. The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate borrowings. Hedging strategies are regularly evaluated to be in line with the interest rate expectation and the defined risk. Thus, it is aimed to create an optimal hedging strategy, to review the balance sheet position and to keep interest expenditures under control at different interest rates.

As of 30 June 2023, 27% of total indebtedness was floating rate and denominated in TRY.

Interest rate sensitivity

The sensitivity analyses below have been determined based on the exposure to interest rates for non-derivative instruments at the balance sheet date. For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the balance sheet date was outstanding for the whole year. 50 basis points is the sensitivity rate used when reporting interest rate risk internally to key management personnel.

(b.3.2) Interest rate risk management (cont'd)

Interest rate sensitivity (cont'd)

Interest Position

	30 June 2023	31 December 2022
Fixed Rated Instruments		
Financial Assets	1.911.381.693	1.524.147.913
Financial Liabilities	3.220.839.524	2.387.392.258
Floating Rated Instruments		
Financial Assets	-	-
Financial Liabilities	1.203.341.314	1.011.436.505

If Libor and Euribor had been higher by 50 basis points and all other variables were held constant, profit for the year ended at 30 June 2023 would decrease by TRY 495.742 (30 June 2022: decrease by TRY 1.958.511). The equity effect is nil. If Libor and Euribor had been lower by 50 basis points, the profit of the Group for the period ended would increase with the same absolute amount.

(Amounts expressed in Turkish Liras)

32. FINANCIAL INSTRUMENTS (cont'd)

Categories of financial instruments (cont'd)

The fair values of financial assets and financial liabilities are determined as follows:

Level 1: the fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices;

Level 2: the fair value of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions; and

Level 3: the fair value of derivative instruments, are calculated using quoted prices. Where such prices are not available use is made of discounted cash flow analysis using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives.

As of 30 June 2023 and 31 December 2022, the Group has derivative instruments as follows:

	30 June 2023		31 December 2022	
	Assets	Liabilities	Assets	Liabilities
