

DEVA HOLDİNG A.Ş.

01.01.2023 - 31.03.2023 PERIOD

ACTIVITY REPORT OF THE BOARD OF DIRECTORS

DEVA HOLDING IN BRIEF

Established in 1958, DEVA Holding is among the well-established pharmaceutical manufacturers in Türkiye. With the main area of operations including manufacturing and marketing medicinal products for human and use and raw materials, DEVA Holding also manufactures veterinary medicines, eau de Cologne, and medical ampoules.

The majority of shares in DEVA Holding was acquired in 2006 by funds managed by GEM Global Equities Management S.A., an international fund management company, and EastPharma Ltd. was established to assume management.

DEVA Holding is pacing rapidly toward its goal of being the first choice by offering innovative and unique products with a high-quality experience by creating giant pharmaceutical brands in areas where it competes, in order to make healthy living accessible to everyone around the world. With the new therapies it offers, DEVA Holding makes difference by expanding its product diversity every year.

Currently, its product portfolio contains more than 650 products in 14 therapeutic areas, ranging from oncology to cardiology, respiratory system and ophthalmology, as well as medical devices. With progressively expanding regional growth and export operations, DEVA Holding is the holder of 1,029 marketing authorizations in 69 countries, including the USA, Switzerland and Germany. Founded under the brand name of Devatis in Germany and then in Switzerland, the company received registration approval in 2018 and having been established in the USA under the same name, accelerated its activities.

DEVA Holding focuses on research and development to improve access to medicines for patients who need them, and all of its manufacturing facilities are certified compliant with the European GMP (Good Manufacturing Practice) and US FDA (Food and Drug Administration). DEVA Holding currently exports pharmaceuticals and pharmaceutical raw materials to more than 50 countries.

DEVA Holding develops high-quality and innovative products with its award-winning R&D center, DEVARGE, strong staff of well-trained employees who are experts in their respective fields, and full-fledged laboratories and manufacturing sites equipped with cutting-edge technology.

With its manufacturing capabilities, DEVA Holding has become the domestic corporation with the most comprehensive production capabilities in Türkiye. Undertaking manufacturing operations at facilities in Çerkezköy and Kartepe, DEVA Holding holds an annual output capacity of 587,7 million units of medicines. While producing for public health, DEVA Holding also adopts the understanding of sustainability for the effective and efficient use of resources, and considers environmental sensitivities in its activities. DEVA Holding manages human rights, occupational health and safety, energy efficiency and waste with great care, and continues its activities with the awareness of leaving a more livable world to future generations with its employees who possesses environmental awareness and sustainability approach.

Continuing to work for a healthy and sustainable future, DEVA Holding also supports social responsibility projects, especially in the fields of education, public health and the environment

The segment (ATC1) distribution of sales by box and TRY is as follows:

DEVA Holding Unit Sales %

DEVA Holding TRY Sales %

Source: IQVIA Free + Hospital Dataview

(**) "Free Goods" are not included to TYR value due to the change of the calculation method by Turkey IQVIA.

In the related period, DEVA Holding sold 6.8 million boxes worth TRY 47.5 million to the State Supply Office and 6.3 million boxes worth TRY 70.4 million for hospitals. The said sales are not included in the IQVIA data.

In addition, exports amounted to TRY 193,8 million, corresponding to 10,3 million USD, in the relevant period.

RISK MANAGEMENT AND INTERNAL CONTROL MECHANISM

The risk management activities of our company are performed under the coordination of Risk Management Committee. Risk Management Committee evaluates the information from the Credit Committee and Internal Audit within the framework of Corporate Risk Management, and prepares and the results of the evaluation and any action plans to mitigate risks and presents them to the Board of Directors.

The credit committee sets the credit limits to be allocated to customers in product purchases and the bases for the securities to be received. It uses the partnership structure, immovable properties, financial status, and intelligence activities about the region in setting limits and securities. It is aimed to keep the security rates on desired levels and minimize doubtful receivable risks by continuous management of customers' open accounts.

Internal Audit Management audits the compliance of the activities carried out by the company with international auditing principles and generally accepted management standards, company's articles of association as well as written policies and practices. Internal Audit Management evaluates all units in terms

of management within the framework of the audit plan, and presents audit results to the Risk Management Committee and the Committee Responsible for Audits on a regular basis.

In 2023, internal audit activities were carried out for the company's operations, the risk reports from all units were evaluated, and the findings and recommendations for improvement were presented to the Board of Directors.

ASSESSMENT OF RISKS AND ADMINISTRATIVE BODY

Early Risk Detection Committee was formed to detect the risks that may compromise the existence early, growth and continuation of our company, to implement the necessary measures against the risks detected, and to perform studies to manage risks.

Financial Risks:

The operating capital need of our company is met by its shareholders' equity, short- and long-term bank loans in Turkish Lira and foreign currencies, and debt instruments. The increases in exchange rates and interests as a result of possibility of negative market conditions increase the financing costs of the company. Thus, due to economic and geopolitical developments both in the World and in our country, it is expected that the fluctuations in exchange rates and interest rates will adversely affect our profitability. For the purpose of

managing the interest risks the company is exposed to, the gains and losses to occur in case of potential changes in interests are measured using sensitivity analyses on the basis of credit portfolio and cash flow projections. In addition, efforts are made to keep the floating rate loans among the total loans at a reasonable rate. Derivative products may be used for protection against exchange risks that may result from both bank loans in foreign currencies and purchases in foreign currencies.

Moreover, the developments regarding Kahramanmaraş centered natural disaster occurred on 6 February 2023 which affected Adana, Adıyaman, Diyarbakır, Gaziantep, Hatay, Kahramanmaraş, Kilis, Malatya, Osmaniye ve Şanlıurfa are being closely monitored and their possible effects on our Company are monitored.

Credit Risk of Customers:

The distribution and payment terms of trade receivables are of great importance in terms of risk management. The company tries to decrease receivable risk by performing its transactions only with credible parties, and wherever possible, obtaining securities. While transactions are carried out without any security with Group A customers, securities are requested from Group B and Group C customers such as bank letters of guarantee or collaterals. To minimize the credit risks the company is exposed to, the financial statuses, credit limits and securities of customers are monitored on a regular basis by the Credit Committee.

Strategic Risks:

The drug pricing policy set/to be set by the Ministry of Health (increase in institution discount rates and/or reduction in reference prices, non-revision of the reference exchange rate) may have negative effects on the industry, and consequently on our company. We try to overcome these negative effects by means of new markets, increasing product range, new sales policies, and effectively managed cost-limiting policies.

Operational Risks:

Operational risks are related with events affecting activities such as earthquakes, fire, and environmental accidents and smooth functioning of business processes. Insurable risks are revised on an annual basis and excluded by being insured.

The explanations regarding the developments that significantly affected the Company's activities in this period are presented above. For other information, you can access the Annual Report of 2022 at www.deva.com.tr
